CALIFORNIA NEWS ITEMS IN BRIEF

Paragraphs of Interest to
Golden State Readers

John J. Wine, said to have been the oldest Mason in California in point of membership, died recently at Los Angeles.

Isaac Wolfgang, convicted slayer of Patrolman Oliver W. Dinsmore, at Los Angeles, was sentenced last week to be hanged.

Charles Pool, auditor of Sonoma county for the term ending January 8, has been indicted on three separate charges of embezzlement.

The postoffice at Snelling, on the Yosemite Valley railroad, near Merced, was robbed by burglars of \$5 worth of stamps and \$15 in cash.

John L. Koster, pioneer of San Francisco and prominent in constructive enterprises in California for many years, died last week at the age of 87 years.

In an election in the Shasta Union high school district, W. L. Gay and G. R. Wilford were elected trustees, defeating Leslie Alward and Mrs. Arthur M. Dean.

An explosion of gas on an oil tanker, La Purissima, in the San Pedro harbor caused several thousand dollars damage and seriously injured Thomas Readon.

Thomas Jennings, former San Francisco banker and member of a wholesale grocery firm died in Madrid, Spain, while on a world pleasure tour according to a dispatch.

Northern California's new mile and one-half speedway, which is to be built near Hayward, will be completed and ready for practice one month before the opening race, which is to be held on Labor day.

Robbers backed a truck up to a clothing company within a block of the police station at Santa Barbara and looted the store of 160 suits of clothing valued at \$6000.

A shipment of 42,000 baby chicks was sent from Petaluma by local hatcheries for consignment to various parts of the country. This is one of the largest single shipments in the history of the city.

What is believed to be the source of Pasadena's liquor supply was removed by a raid at Duarte, where a house was broken into and \$15,000 worth of moonshine liquor destroyed.

Plans are rapidly being perfected for a Pageant of Progress and fair to be held at San Carlos, May 26 to June 3, to boost the peninsula towns, San Francisco, San Mateo and Santa Clara counties are co-operating in this enterprise.

In the future, persons trespassing on government land to take turpentine, timber, oil, coal or minerals, will be fined according to the laws of the state in which the offense occurs, according to a recent supreme court decision governing federal lands.

V. Vineyard of Los Angeles, alarmed at the frequency of burglaries in his neighborhood, borrowed a shotgun and prepared to protect his home. When he woke up all of his clothing, \$23.50 in money and the borrowed shotgun were missing, according to his report to the police.

Sara Lucas, pioneer of Yolo county and head of a family of seventy-two blood relatives, celebrated her ninety-fifth birthday anniversary at a picnic in Cache creek valley, braving a threatened storm that she might meet with four generations and enjoy the milestone in her life.

The filing of a conveyance whereby the ownership changed of a tract 3.425 acres, located in Yuba county on the highway between Marysville and Wheatland, marks the final step in one of the largest land deals ever consummated in Yuba county. The sale price was \$550,000.

An unfounded charge that investors in the east and middle west recently had been defrauded of \$6,000,000 through purchase of land in the heart of the San Joaquin valley was refuted in the federal court in Chicago, which upheld the contention of residents of Merced and Fresno counties, that the land involved is first-class farming land.

Mr. and Mrs. William P. Davison, who claim to be the first native California couple to have married, recently celebrated their golden wedding anniversary at their home in San Mateo. They were married in San Francisco in 1873. Mr. Davison made the rounds of San Mateo residences inviting all native sons to come and take part in the festivities.

Philip Hildebrandt, sub-station inspector for the north-of-bay district for the Pacific Gas and Electric company, received 37,000 volts of electricity at the sub-station plant at Petaluma. His feet and arms were badly burned and his shoes were burned from his feet. He will recover.

The new state highway commission, after deducting more than \$7,000,000 which is tied up in outstanding obligations, has available in cash and other assets, \$5,378,190.68 for road construction, according to a report of the state board of control following a special audit of the books.

GRANGE CELEBRATES BIRTHDAY

One hundred and twenty grangers met in Odd Fellows Hall Tuesday evening to celebrate the Grange's 20th birthday. The exercises were opened with a piano solo by Myrtle Arnott.

Mr. Carboni sang in his usual fine manner; Miss Hogan recited "Little Joe" to the delight of all and Miss Jenkins sang, accompanied by Miss Smith, who also accompanied Calvin Bohnett in a violin solo. All of the above responded to encores, making one of the most delightful musical programs the grange has listened to for many days.

There were in attendance the Worthy State Master Harrison and wife; Mr. E. T. Pettit, former State Master and eight of the Past Masters of Orchard City Grange, being all except Frank Mitchell and A. C. Keesling, who could not be present on account of sickness. All of the Past Masters are living and all still members of Orchard City Grange except E. C. Abbott who is now a member of San Jose Grange.

Mr. Clendening read a letter from Past State Master Hunt in regard to the gold dredging bill which is before the legislature. The bill has been favorably reported out of committee and it is hoped it will become a law and stop the wanton destruction of some of the best agricultural and orchard land in the state by covering it from 10 to 12 feet deep with coarse gravel and cobblestones, thus ruining it for all time. Acres and acres of such land are being destroyed between Sacramento and Folsom. Any one once viewing this wanton destruction of valuable land would declare it a nuisance that ought to be stopped.

Mr. Harrison spoke earnestly in support of the bill as did Mr. Clendening and others. Worthy Master H. V. Archibald had sent telegrams to our representatives in Sacramento urging the support of the bill and his action was heartily endorsed by unanimous vote of the grange.

On orchard work Mr. Coupland said thin cots now, as the crop would be large and small cots would mean smaller prices. A committee on resolutions on the death of Brother C. D. Harvey of San Jose Grange, reported Mr. Harvey was the organizer of Orchard City Grange. It was announced that on Saturday, May 12, Pomona Grange would hold an all day Field Day on the Campbell High School grounds, with basket lunch at noon, sports and a general good time are anticipated. After a light supper Pomona Grange will hold a closed session in the hall.

PLANT SALE

The Flowers Lovers' Club of Santa Clara County will hold a plant sale commencing Tuesday, April 17, and continuing thru the week. The funds derived from this sale will be used to cover the expense of the annual flower show held in the early fall.

Tuesday will be San Jose day at which time rose plants will be on sale.

Campbell will have charge of the sale of perennials on Wednesday and Saratoga will sell chrysanthemums Thursday. Evergreen committee will have the bulb department Friday laying stress on gladiolus stock. Saturday will be a general sale day.

This sale will be unusual in that the prices will be so set as to encourage the growing of flowers rather than merely to raise money. The sale will be held between the hours of 9 and 6, at 20 North First street, San Jose, and will afford an opportunity for all to secure choice plants at reasonable prices.

\$155,000 GRAMMAR SCHOOL AT CAMPBELL DEDICATED

Supt. Wood Speaks in Packed Auditorium

Very often a long anticipated event fails in realization to meet the expectations of its promoters but such was not the case with the dedicatory exercises of the Campbell Union Grammar School held on Friday evening.

Everything passed off to the pleasure of all concerned and expressions of praise and commendation were heard on every hand.

The program as previously published was carried out except the agricultural talk. The boys band played several numbers before the remainder of the program was begun. Under the direction of Edward Towner this organization shows a marked improvement since their appearance no longer ago than Feb. 22.

The solos of Miss Olive Burgess, a former teacher in the school and those by our own popular soloists, Mrs. Ralph Hyde and L. J. Carboni, were all delightful and the audience would gladly have heard more, but the

length of the program was prohibitive. Miss Mace, Mrs. Geo. Robson and Mrs. Carboni acted as accompanists.

The Grammar School Glee Club under the direction of Miss Mace, sang one pretty chorus, followed by a solo sung by Stephen Merrill with a smaller group singing the choruses. Both numbers were very creditably given and helped demonstrate what consolidation means in the music line.

Jos. A. Conner in a few words reviewed the chief events in the history of the school from its consolidation to the occasion for which all were met, the dedication of this beautiful building. He spoke of the fine corps of teachers and the work which they were accomplishing, ending by saying and "Now if Dan Cupid will only leave us alone we shall give your boys and girls an education second to none in the state."

The next speaker was Principal Ernest J. Cuthbertson who began by remarking, "I am proud tonight," wherein he voiced the sentiments of all the residents of the four districts. Mr. Cuthbertson called attention to some of the many advantages which boys and girls who attend such a school have over less favored students. He invited all present to inspect the building from wing to wing and see all its beauties and facilities and spoke of the untiring efforts and hours upon hours of time given by the trustees to this building.

Upon being introduced, Superintendent of Schools, Joseph E. Hancock called attention to the various wordings on the program indicating that each speaker was limited to time. He especially emphasized the need of hearty co-operation on the part of parents with the school authorities and the loyal support of the teachers in order to have a school of the best type, where the pupils will get the most good from their work. He commended the district on its goods business sense in putting its money into such an asset, still it was not the money involved that was important, but the characters produced—"See that the teachers to whom you intrust the soul and character of your boys and girls are the highest type of men and women."

The address of State Supt. Will C. Wood was full of suggestive thought:

"Campbell has reason to be proud of this school and of things for which it hopes to stand." Indicating the thing—"I am dedicating it to fundamentals. The three fundamentals in life are food, clothing and shelter. So that learning to properly prepare food, to work with the hands, to raise the voice in song, are not fads of education but fundamentals."

"I am glad to be here and extend the greetings of the people of the state and to bring the greetings of the school system with its 900,000 children. And in the name of this democracy, in the name of what we should teach, in the name of childhood and of America and American democracy, which rests not alone upon the consent of the people to be governed but on knowledge and the advancement of the boys and girls of America, and of our flag and all it stands for, I dedicate this building," concluded Mr. Wood.

Following the benediction the greater part of the 1500 people who had gathered for the program thronged the halls and corridors, visiting the various rooms and being served with punch and wafers by the ladies of the Home and School Club in the spacious cafeteria.

RAILROADS UNITE

GREAT VOLUME OF BUSINESS DONE LAST YEAR

FREIGHT RECORDS BROKEN

Mammoth Transportation in 1922 Successfully Handled Despite Many Strikes—Present Year to Set New Record

New York.—The American railroads have adopted an intensive working program to enable them to meet the growing transportation needs of the country.

Announcement to this effect was made after the Association of Railway Executives had approved steps taken by the American Railway association.

The statement said that despite the obstacles in the way of transportation service since July 1, 1922, by the cumulative effects of the coal miners' and shopmen's strikes, the railroads have, between July 1, 1922, and March 17, 1923, handled the greatest volume of traffic ever transported during any corresponding period in the history of the country.

To meet the growing demands of commerce, the roads have authorized since January 1, 1922, for improving facilities, the expenditure of \$1,540,000,000, of which \$440,000,000 was actually spent, in 1922.

From January 1, 1922, to March 15, 1923, the roads purchased 223,616 new freight cars. Of these, 117,280 have been delivered and put into service and during that time have purchased 4219 new locomotives. Of that number 2106 have already been placed in service.

France Yields to England

London.—France has sought agreement with Great Britain on the reparations question and end of the Ruhr deadlock is in sight. The French are understood to have made important concessions with a view to renewing the French-British entente. Louis Loucheur, leading industrialist of France, conferred with Premier Bonar Law at Dawlish, and for two days was in secret conference with Stanley Baldwin, acting premier in Bonar Law's absence from London. Mr. Loucheur also spent last week-end with former Premier Lloyd George. French troops have taken possession of all banks at Bochum.

Earl of Carnarvon Dead

The death of the Earl of Carnarvon is announced. Death was due to blood poisoning through the bite of an insect, with later developments of pneumonia. The death comes soon after the culmination of the exploit that brought him chiefly into public notice—the discovery of the rich tomb of the Pharaoh Tut-Ankh-Amen in the valley of the Kings in Egypt by the archaeological expedition which he headed.

North Carolina Tornado

Raleigh, N. C.—Many were injured by a tornado which cut a wide swath ten miles long in Wake county, wrecking houses and doing damage to the amount of \$100,000.

Injured in Explosion

Buffalo, N. Y.—Seven men were injured in an explosion at the plant of the National Aniline & Chemical company. It is reported that a large kettle of dye burst, its boiling contents severely scalding the men.

HITS UNITED MINE WORKERS

Coal Operators Allege Czar Rule by Hidden Power of Organized Labor—Clites Systematic Violence

Washington.—Charging the United Mine Workers of America with "destructive monopoly of labor," the bituminous operators' special committee has filed a brief with the United States coal commission citing the labor organization for maintaining a "campaign of deliberate violence." They charge the union's policy toward employers as the "chief deterrent to a satisfactory supply and price of coal."

The brief was submitted in reply to a request of the commission for specified charges and evidence of violations of property rights in the coal industry by union officials and agents. The operators enumerated twelve cases of violence on a large scale in the bituminous fields since January 1, 1919, including the Herrin, Ill., and Mingo county disasters, and charge the union with responsibility for the present coal shortage and "consequent abnormal prices." The effort to extort an artificial and economically unjustifiable wage scale by nationwide strikes as the weapon is directed solidly against the public.

Charge Loose Practice

San Francisco.—Accusations of loose methods in the prosecution of vice and gambling cases have been made against the district attorney's office in a meeting of the women's vigilante committee, in which Mrs. W. B. Hamilton, vice president of the body, declared that it "recalled the graft days." The district attorney countered at once by asserting in a formal statement that he will request Mrs. Hamilton to appear before the grand jury to tell what she knows about graft. He categorically denied the charges, declaring that Mrs. Hamilton's statement is the first whisper of graft in connection with his conduct of the office.

Million Dollar Steamer List

New York.—The steamship Frederick VIII has arrived from Copenhagen with a million-dollar steamer. Aboard the steamer were about 400 Scandinavian farmers who brought forth letters of credit, many of them for thousands of dollars. Immigration officials estimated that the total was close to a million. They are bound for the West and Northwest.

Storm Sweeps South

New Orleans.—States in the lower Mississippi valley have suffered from a severe storm which caused loss of life and heavy property damage. The storm swept through the northeastern part of Texas, into Arkansas, through Louisiana, and jumped the Mississippi river, bearing eastward through Mississippi and Tennessee.

Harding Buys Old Home

Mt. Gilead, Ohio.—President Harding has purchased his birthplace—a farm in north Bloomfield township, Morrow county—where as a barefooted boy he spent his childhood days. He plans to modernize the premises to include a bungalow and golf course.

Elevated Train Crash

New York.—Twenty-four persons were hurt, four so badly they had to be taken to hospitals, in a crash upon an elevated line when the train ran into heavy steel bumpers at the end of the line.

We hope our readers will all enjoy as good a laugh over this clipping as we did. It is taken from the Cleveland Plain Dealer—“Every knock is a boost!”

Karl is Peeved

Dedicated to “Professional Californians Everywhere” are these carping verses from K. K. K. who seldom deserts his staff correspondents to burst into song. He has evidently struck some bad weather in sun-kissed California; here are his verses:
The Mission bells are ringin, but they jangle out of tune.
For earthquakes hit this country, every other day at noon.
The snow and sleet are falling, as I shiver ‘neath the trees—
If this is California, give me Ohio please!

The roads lead out to nowhere, past estates with no one home. And only Fords are visible, no matter where you roam.
But I have solved a riddle though I didn't have to try—
It's “Sun-kissed California” ‘cause the sun kissed it goodby!

K. K. K.

S. S. CONVENTION

The Thirteenth Annual County Sunday School Convention will meet this afternoon in San Jose at the First Methodist Church. The schedule for afternoon and evening sessions is as follows:
2:15—Registration.
2:30—Devotions.
3:00—Address—Why Vacation Bible Schools, Rev. Chas. E. Duncan, San Francisco.
3:30—Discussion.
3:45—Address—The Community Training School.
4:15—Discussion.
4:30—General Sunday School Conference—Mr. W. C. Pearce, New York City.
5:00—Report of County Officers.
5:30—Supper.

Evening Session.

7:30—Devotions.
7:45—Address—The New Program of Religious Education—Mr. C. R. Fisher, San Francisco.
8:15—Discussion.
Election of Officers.
8:30—Address—My Experiences around the World, Mr. W. C. Pearce, New York City.
Offering.
Benediction.
Mr. Pearce has just completed a trip around the world and his experiences have been varied and interesting. He will throw much light on present day problems in Europe.

CARD OF THANKS

Since God has in His providence taken from our home our only daughter, Gertrude, we wish to gratefully thank the many friends who have been so helpful and kind during her illness and in the time of our bereavement.

We especially thank the Odd Fellows and Rebecca lodges and the Church.

W. E. DREISBACK,
and family.

CLUB ENJOYS TALK

One of the very interesting meetings of the High School P. T. A. was that held Tuesday afternoon when the Senior Class was entertained.

Miss Patrice Smith played two charming piano numbers and then Dr. Tully C. Knoles was introduced. He, who seems able to suit any age and talk upon any topic, certainly gave his listeners, both students and adults, a talk that was full of inspiration, and food for reflection, that must needs urge on to greater activity in promoting education of our rising generations. If his talk had a subject it would be “Success” and the figures and facts which Dr. Knoles gave with such apparent ease were an object lesson of what education will result in if continued.

He quoted from Mr. Babson, the master of figures, to whom bankers and others apply for facts. From statistics it has been found that out of 150,000 people one will succeed who has had no education, 4 will succeed who have only a grammar school education 87 who have completed high school and 800 with college diploma.

More startling are figures compiled by the U. S. Commissioner of education. Out of every 100 boys and girls who enter school only 84 reach the fifth grade, 73 the sixth, 64 the seventh, 58 the eighth. Of those finishing the eighth grade only 32 enter high school, 23 complete the first year, 17 the second, 14 start the senior year and 13 graduate. As our population is increasing rapidly the loss is no due to decrease in numbers.

From these and various other figures he made clear two third of those who vote and make our laws, amend our constitutions, vote bonds, and so on have never gone beyond the sixth grade.

He commented on our new grammar school and its location which perhaps was designed to show the contrast with our high school building. Los Angeles has just voted an immense sum to build three more high schools which will make its total 19. More pupils are attending high school in that city than in San Francisco, Alameda, San Mateo and Santa Clara Counties combined.

At the conclusion of the address, ice cream and cake were served.

Several important matters were presented at the business meeting. The two Campbell P. T. A.'s will unite this time in making up cookies for the soldiers at the Palo Alto hospital. The date has not been set definitely.

Mrs. Louis Shelley will represent the club at the Sixth District P. T. A. convention at Holister on April 17 and 18. No delegate was sent to the state meeting at Stockton May 8-11. If anyone can attend the president will provide her with credentials.

The nominating committee presented the following list of officers for the year 1923-24, for which the secretary was instructed to cast the ballot: President, Mrs. Louis Shelley; Vice-President, Mrs. John Lund; Secretary, Mrs. E. E. Duncan; Treasurer, Mrs. Geo. Miller.

A cash prize of \$5.00 was voted to be given to one of the high students who has written one of the best essays on “What Can America Do To Promote World Peace.”

The next meeting will be held on May 8 with the new officers in charge.

CALIFORNIA NEWS ITEMS IN BRIEF

WALTER G. Hunter, assistant state highway engineer and prominent Stockton resident and sportsman, was killed instantly during a golf game at the Country club when struck by a bolt of lightning.

Jack Connelly of Yreka, was killed and Jess Sands, his wife and two children were seriously injured when their automobile plunged from the Shasta river grade down a 200-foot precipice into Shasta river.

The appointment of Lieutenant-Commander Eric L. Barr, formerly of the U. S. S. Ortolan, as commanding officer of the submarine base, San Pedro, has been announced at twelfth Naval District headquarters.

Frank Widney, 57, son of a prominent Santa Clara real estate broker and capitalist, was found dead in bed at his ranch home in the Santa Cruz mountains near the Saratoga summit with a bullet through his head. His pistol was beside the body.

Why a Reserve

Makes for Prosperity All Around

It makes you feel good, when you dig to the bottom of things, to find how right business habits not only help you, but affect favorably, through you, your community as well.

You like, for instance, to keep a satisfactory reserve in your checking account. The first move you make when the monthly statement comes to hand, is to look for the figures showing your balance. Mentally you say, “What have I got left?” If it is a sizable balance you breathe easier. You feel that that balance is a pretty good thing.

But not for you only. Your community needs capital. Mr. Farmer wants a loan to pay the help that is thinning his cots; Mr. Builder can use a little extra money in finishing a new house; Mr. Merchant needs an accommodation to lay in a stock of goods for the summer trade. These men look to the bank. The loaning power of the bank depends a great deal on the reserve of the community, and the reserve of the community is largely made up of the reserves of individual depositors. So your own reserve is not limited to helping you, it is helping others.

And what about the bank? You notice the busy workers, the machines that cut bookkeeping costs, the vaults that protect your money, the building that houses all—in a word, all the items that make up bank service. They are maintained by bank profits made from those loans that you just saw depending much on individual reserves.

You see, then, that the right sort of individual prosperity, like measles and whooping cough, is catching.

Town Tales Tersely Told

Mrs. Wayne Sanders is confined to her home with a serious cold.

Miss Sadie Maxon is slowly recovering from a badly wrenched back caused by a fall the first of the week.

C. T. Fawcett left Saturday for Bismarck, N. D., where he has land properties and an interest in a sash and door factory.

Mrs. Francis Lyman is with her aunt, Mrs. Mary Lanphear, while being treated for a complication of stomach trouble.

Sickness still continues very prevalent. Among the more recently afflicted are Mrs. Chester Archibald and T. A. Robinson.

Miss Amy Farley, who has been ill at her home here for a week following her vacation, was able to return to her school at Sutter Creek, Saturday.

Mrs. J. F. Cyrs wishes to thank her many friends who have been so kind and helpful since her recent accident. She is able to move about her rooms a little with assistance.

Mr. and Mrs. W. E. Billings, of Bakersfield, were in Campbell the first of the week. Mrs. Billings is a daughter of J. S. Fay who Tuesday accompanied them on a trip to Toulumne County.

Will Rubell took his wife and Mr. and Mrs. C. F. Rubell to Lonoak Sunday, where his mother will visit for a week and his father will remain for some time.

The Chemistry Class of the C. U. H. S. under the charge of Miss Boesch, spent Thursday in San Francisco visiting several plants that use chemistry in some department of their manufacturing.

Dr. and Mrs. Kendricks, of St. Paul, Minn., friends of Mr. and Mrs. W. T. Alexander, who are spending some time in California, arrived Wednesday from Los Angeles and are visiting in Campbell.

The Pundita Circle will meet on April 18 with Mrs. Thomas. The program as scheduled is based on Early American History. Mr. Thomas will give a talk of the Cliff dwellers, mound builders and early Indians.

As Campbell is making such a wonderful growth in beautiful homes, Mr. J. H. Neff will in the near future put up a green house and propagating house and will furnish all kinds of plants and shrubbery usually kept by florists.

The initial work on the library building is under way. Contractor Keesling has the forms nearly ready for pouring the concrete for the foundation. The work of moving the present building has been somewhat delayed but will be done.

Geo. N. Stray, whose serious illness was noted last week with the marked improvement following seems not to have maintained that condition, but appears to remain about the same, tho, perhaps, gaining a little. His relatives have every sympathy in their hours of anxiety.

Geo. Whitney has been moving via the wheel barrow route, for several days, and they have now completed the operation by truck. Mr. Whitney says that having lived for 32 years in one house, his wife found plenty to burn up at one end of the route, and he completed it at the other.

N. Mikel of the Los Gatos road reports the theft upon two occasions of a lens from his automobile while parked in Campbell. On one occasion the owner was attending the movie and the second time he was in the bakery. The need for a peace officer is becoming more evident. When Campbell incorporates it can have a police officer.

C. U. H. S. base ball team, 130's, played the Sequoia Hi team from Redwood City Wednesday afternoon and defeated them 7 to 3. Playing on the Campbell team were Elber Clark, p; Ted Moffitt, c; Wiesendanger, 1st b; Edgar Gerow, 2d b; Bert Mattison, ss; Raymond Steindorf, 3d b; Gayno Eddleman, lf; Sam Reed, cf; Arthur Husted, rf.

YOUNG LADY AT REST

Gertrude Dreisback, who has been ill for several months, passed away April 9, and funeral services were held Wednesday afternoon from the Congregational church, Rev. W. E. Eckles in charge. Interment was in Los Gatos Cemetery. Irving Townsend, John Duncan, Jr., Norman Evans, Yale Maxon, Lucius Buck and Windsor Cutting acting as pall bearers. Miss Evelyn Henry sang a solo and a quartet composed of Miss Henry, Mrs. Eckles, Mr. Eckles and Dr. W. I. Merrill also sang.

Gertrude was a high school student and would have been a member of the sophomore class if illness had not intervened. Inclined to anemia, last year she had a very severe case of small-pox, from which later internal tuberculosis developed. For many weeks she has lingered, suffering from weakness and emaciation and while mourning her loss, no one could wish her to suffer longer.

She was the only daughter of Mr. and Mrs. William E. Dreisback and sister of William and Leslie Dreisback. Her birthplace was at Cloverdale, Sonoma County, seventeen years ago. She was an attractive, sweet dispositioned girl and had many friends among her school mates and the young people of the church.

\$5 REWARD

The Campbell Improvement Club will pay \$5 to the person giving information leading to the arrest and conviction of the miscreants who go about shooting the electric street lights and porch lights of private homes. This step is taken to protect both private and community property and should receive the hearty support of all good citizens.

The slogan contest will be continued for one month.

Thad W. Ireland and family, who have occupied the Marshman home on North First Street for the past two years, are moving to San Jose where they have purchased a new home. Mr. Ireland is vice-president and assistant manager of the Interstate Refining Co., which recently took over the business of the Valley Oil Refinery at San Jose.

The seat sale for the concert Saturday evening is encouraging to the committee in charge, but the new auditorium will accommodate a large attendance and both the cause and the artists are deserving of a full house.

L. J. Flower and family, who lived at the junction of Dry Creek and Los Gatos Roads, have moved to Aromas and J. Patrick of North First Street has taken the home vacated by Mr. Flower.

Messrs. Luman Gard, Jas. Burns, and Ben McCaughy, with the boys of the families went to the San Joaquin Sunday to fish for shad. They got enough to make the frying pan smell. Nuff said.

Monday April 16 is the next meeting date for the Country Woman's Club. The subject is "Women Rulers of Modern History" and a Review of Lytton Strachey's "Life of Queen Victoria."

Miss Joyce Robson was one of the 1923 class of Stanford who completed the four years work and graduated Wednesday, receiving her B. A. in History.

Mrs. Jos. A. Conner, wife of the president of the C. U. G. S. Board of Trustees was taken to the hospital Monday for an operation for appendicitis.

D. ELBERT MURPHY Chiropractor

Will be in his office in Campbell, Tuesday, Thursday, and Saturday afternoons, from 1 to 5 o'clock, until further notice.

Colorado River Pact

Denver.—Governor W. E. Sweet has signed the Colorado river pact, completing Colorado's part in the negotiations of an agreement between seven Western States with reference to the disposition of the waters of the Colorado river basin.

Saved From Burning Ship

New York.—The captain and the crew of six of the British schooner Rita M. Cluett, were rescued from the burning vessel, about 360 miles south of Cape Race, says a radiogram to the United States Shipping Board.

SAFETY LESSONS FOUND IN PRESS OF MANY CITIES

Lies slumbering here one William Lake; he heard the bell, but had no brake.—Detroit News.

At 50 miles drove Allie Pidd; he thought he wouldn't skid, but he did.—Rome Times.

At 90 miles drove Eddie Shawn; the motor stopped, but "Ed" kept on.—Little Falls Times.

Here he sleeps, one Johnny Fonker; he rounded a turn without a honker.—Scranton Scrantonian.

Down in the creek sleeps Jerry Bass; the bridge was narrow, he tried to pass.—Wilkes-Barre Times-Leader.

Beneath this stone sleeps William Raines; ice on the hill; he had no chains.—Harrisburg Telegraph.

Here lies the body of William Jay, who died maintaining his right-of-way.—Boston Transcript.

Here lies the remains of Percival Sap; he drove his machine with a girl on his lap.—Mountain Realty.

And here's what's left of Samuel Small; he paid no attention to "slow" signs a-tall.—Casper's Weekly.

That ash pile there is Billy Hatch; he looked in his gas tank with a match.—Reprinted from the March 3rd issue of the Pathfinder, Washington.

**RED CROWN
GASOLINE**

by
160%

78 of the first 161 motorists who passed the corner of Market and Kearny Streets, San Francisco, answered "Red Crown" to the question "What kind of gasoline do you prefer?"

The result of this check, in which "Red Crown" led its nearest competitor by 160%, is typical of the entire Pacific Coast field, where the majority of motorists get best results by using Red Crown, the gasoline of quality, and nothing else.

Making the American Dollar Do Double Duty in Armenia

Top—Making the Orphanage Furniture. Right—Earning His Bread and Learning a Trade. Left — Spinning the Cloth for Her own Clothes.

GETTING the dollar to do double duty when it is hard enough to persuade it to give one hundred cents worth of work may sound like a frenzied finance. But it is the actual accomplishment of American workers of the Near East Relief in the Levant, where living costs are constantly striving for new altitude records.

Due to high prices of native products and the difficulties of importing goods into interior stations, these workers have found it cheaper and an effective aid to child training to manufacture their own supplies in the orphanages scattered throughout the entire region from Syria to the Caucasus, in which the Americans are caring for approximately one hundred and ten thousand children.

Not only has this method been found to furnish superior products, according to workers who have been responsible for these activities, but it prepares the children for occupations that will eventually make them self-supporting, such as printing, carpentering, tailoring, dress-making and a dozen other trades.

The same plan is said by these workers to have been followed with considerable success in the administering of general relief. Because it was found that the indiscriminate distributions of money and food tended to make permanent beggars of those that received this form of relief, industrial shops have opened where employment is given to those in need. The products of these shops are either sold or used in caring for the orphans and adult refugees.

Though such methods cannot be adopted in relieving such widespread suffering as now exists in Armenia and elsewhere in the Caucasus, where famine conditions and accompanying disease are reported to be causing the death of thousands, they have been found to be practicable in regions where the suffering is not so acute or widespread and have resulted in the saving of a large amount of money, which it has been possible to apply to an extension of necessary relief activities.

REASON FOR THEFTS JOY RIDING CHIEF

"The official records of the police department for this city for February, 1923," reports Elliot M. Epstein, special counsel of the Motor Car Dealers' Association, which is waging a campaign to minimize automobile thefts, "shows 151 cars stolen, 147 recovered and 4 cars unrecovered."

The automobile thief takes advantage of every change of condition. Nearly all the cars stolen are taken for joy-riding purposes and later abandoned. The thief knows that the average autoist is careless. "Not one man in five," states Arthur T. McQuade, sergeant in charge of the automobile detail of the San Francisco police department, "knows his new registration number. It is remarkable to see people come into the police station, reporting the loss of their car, without knowing a single number of any part of it."

Clip out the following, fill out the blanks, and keep it constantly with you. Then, should your car be taken, you can aid the police in a quick recovery.

Make of car
Model
1923 License No.
Engine No.
Body No.
Transmission No.
Starter No.
Battery No.

SIERRA ROADS OPEN EARLIER

The Sierra roads will open just a month earlier this year than last.

This is the welcome news sent from the mountain towns that have been snowed in for the last five months, and it means that motorists of this State will have a month longer for their vacation trips than for years past.

American To Finish Task

Cairo.—The death of the Earl of Carnarvon, discoverer of the tomb of King Tut-an-kh-Amen, will not affect completion of explorations, it is understood. The contract which was drawn up between the Egyptian government and the Egyptologist was signed by an American, Herbert Carter, the assistant of Carnarvon.

New Mission Board

New York.—The new board of foreign missions of the Presbyterian church, consisting of forty members, including fifteen women has been formally organized.

Former Iowa Governor Dies

Long Beach.—Horace Boies, aged 94, governor of Iowa from 1880 to 1884, is dead. He was a rival of William Jennings Bryan for the Democratic presidential nomination at the Chicago convention in 1896.

\$460,000 Bank Theft Bared

Kirkville (Mo.).—It has been learned that a shortage of approximately \$460,000 exists in the accounts of the Kirkville Trust company, according to investigating authorities. The cashier of the bank, Lonnie F. Gibbs, committed suicide in the vault of the bank March 16.

Gibbs carried \$600,000 life insurance, and his parents assigned \$500,000 of the amount to Dr. H. M. Still, president of the Citizens' National Bank, to protect depositors.

Medical Formula Stolen

New York.—The president of the Central sanitarium, and Bruno Suderman, who says he is the discoverer of a treatment for tuberculosis and diabetes, reported to the police that they were held up and robbed of the only copy of Suderman's formula. He has reported two previous attempts within the last four years to steal his formula.

Odd Cause of Death

New York.—John Wilson was burned to death when a lighted match dropped into the cuff of his trousers, which were saturated with alcohol from the bottle which had been in his hip pocket. Wilson fell to the sidewalk in flames and was dead when an ambulance arrived.

Kilauea Volcano Active

Hilo, T. H.—Kilauea volcano is more active than it has been for years. The glow is visible for miles. With forty acres of fire less than 300 feet from the rim, ten fountains are spouting an amount of lava estimated at 3,000,000 cubic yards weekly.

Albanian Vells Discarded

Belgrade, Jugo-Slavia.—According to Scutari dispatches received here the Albanian Mussulman's Congress at Tirano, Albania, has decided to break with the Caliphate, suppress polygamy and abolish the requirement for women to wear vells in public.

Carnarvon Heir Quits

London.—Lord Porchester, son of the earl of Carnarvon and heir to his father's title, will withdraw from further research work at the tomb of Tut-Ankh-Amen.

Des Moines, Iowa.—The State Supreme Court has upheld the validity of the Iowa bonus law. Affirmation of the lower court's decision that the bonus law is valid practically assures soldiers, sailors, marines and nurses who served from Iowa in the World War adjusted compensation at the rate of 50 cents a day.

New York.—Despondent because of her failure to obtain a professional engagement, Ellen Sonnenthal, said to be a Viennese musician, leaped to death from a ninth floor window in Hotel Astor, where she had been employed several months as an elevator operator.

RECORD OF CANNERIES

California canned more fruits and vegetables last year than ever before in the history of the state, according to statistics just made public by the Canners' League of California. In 1922 the state canned 1,500,000 cases more of fruits and vegetables than were canned in 1921. Canned peaches broke all records, and apricots were also canned in great quantities. The year 1919 was the banner year for this state as far as the canning business was concerned previous to the canning record established in 1922, the statistics show.

The total number of cases of fruit packed in 1922 are shown as follows on the records of the Canners' league: Apples, 2719 cases; apricots, 3,569,918; blackberries, 135,289; cherries, 557,591; grapes, 69,760; Loganberries, 17,675; pears, 1,712,773; free-stone peaches, 1,314,597; cling peaches, 7,844,912; plums, 182,270; raspberries, 3182; strawberries, 4412; other fruits, 61,737. Total fruits, 15,477,865 cases.

Vegetables—Asparagus, 1,239,839 cases; string beans, 150,988; peas, 473,260; spinach (spring pack), 1,180,525; tomatoes, 1,925,289; tomatoe products, 1,498,617; other vegetables, 444,753. Total pack, 22,391,236.

Business Locals

FOR SALE—Baby chicks hatched Tuesdays; eggs own flock White Leghorn, Rhode Island Reds, Anconas. Prices right. Box 91, Campbell or call Maurice Weeks, So. 4th St.

WILL CARE for Children evenings. Call Campbell 69.

FOR SALE—Chickering piano in perfect condition; mahogany finish; attractive size. A bargain. Inquire of Harry C. Smith

FOR SALE—Two furnished Cottages in Pacific Grove to close estate. W. H. Crothers, Hamilton Ave. Phone Campbell, 29 R. 40ft

Try Miller's First for fresh chipped beef. Ask for free pamphlet giving thirty-two ways of preparing it for the table.

Notice.

Now is the time of year to have your yards and flower gardens put in condition, and your lawns put in. For this kind of work see J. H. NEFF.

FOR SALE—Good steel Garland Range, six hole and water back. Bargain if taken at once. Inquire at the Press Office.

DO YOU WANT a new HOME on the countryside of Campbell, where you will have elbow room, and plenty of good fruit trees to help out on income?

We are building a first class bungalow of 5 rooms on an 80-foot lot on Rincon Avenue, near the Los Gatos Road, and close to schools, that we are pricing both reasonable and on easy terms.

Also will build to suit on some half acre lots, good frontage and plenty of rear room for poultry and having good paying orchard. Location ideal and close in.

See us for terms and prices if you want something good that is not over valued, Mission Hatchery, Geo. M. Ellison, Campbell.
